A Detailed Comparison: TRS to CA$HLINK II

CA$HLINK II

- A deposit reporting application

- Supports multiple functions including deposit reporting, Fedwire and REX transaction processing, cash concentration, and voucher corrections

- Does not support reporting of Treasury Account Symbols (TAS) & Business Event Type Codes (BETC)

TRS

- Will report both deposits & detail of collection transactions

- Solely a reporting solution for deposits and the detail of collection transactions

- Will support reporting of classification codes to GWA

Agency Outreach and Transition Projects	**Agency Outreach and Transition Projects**							
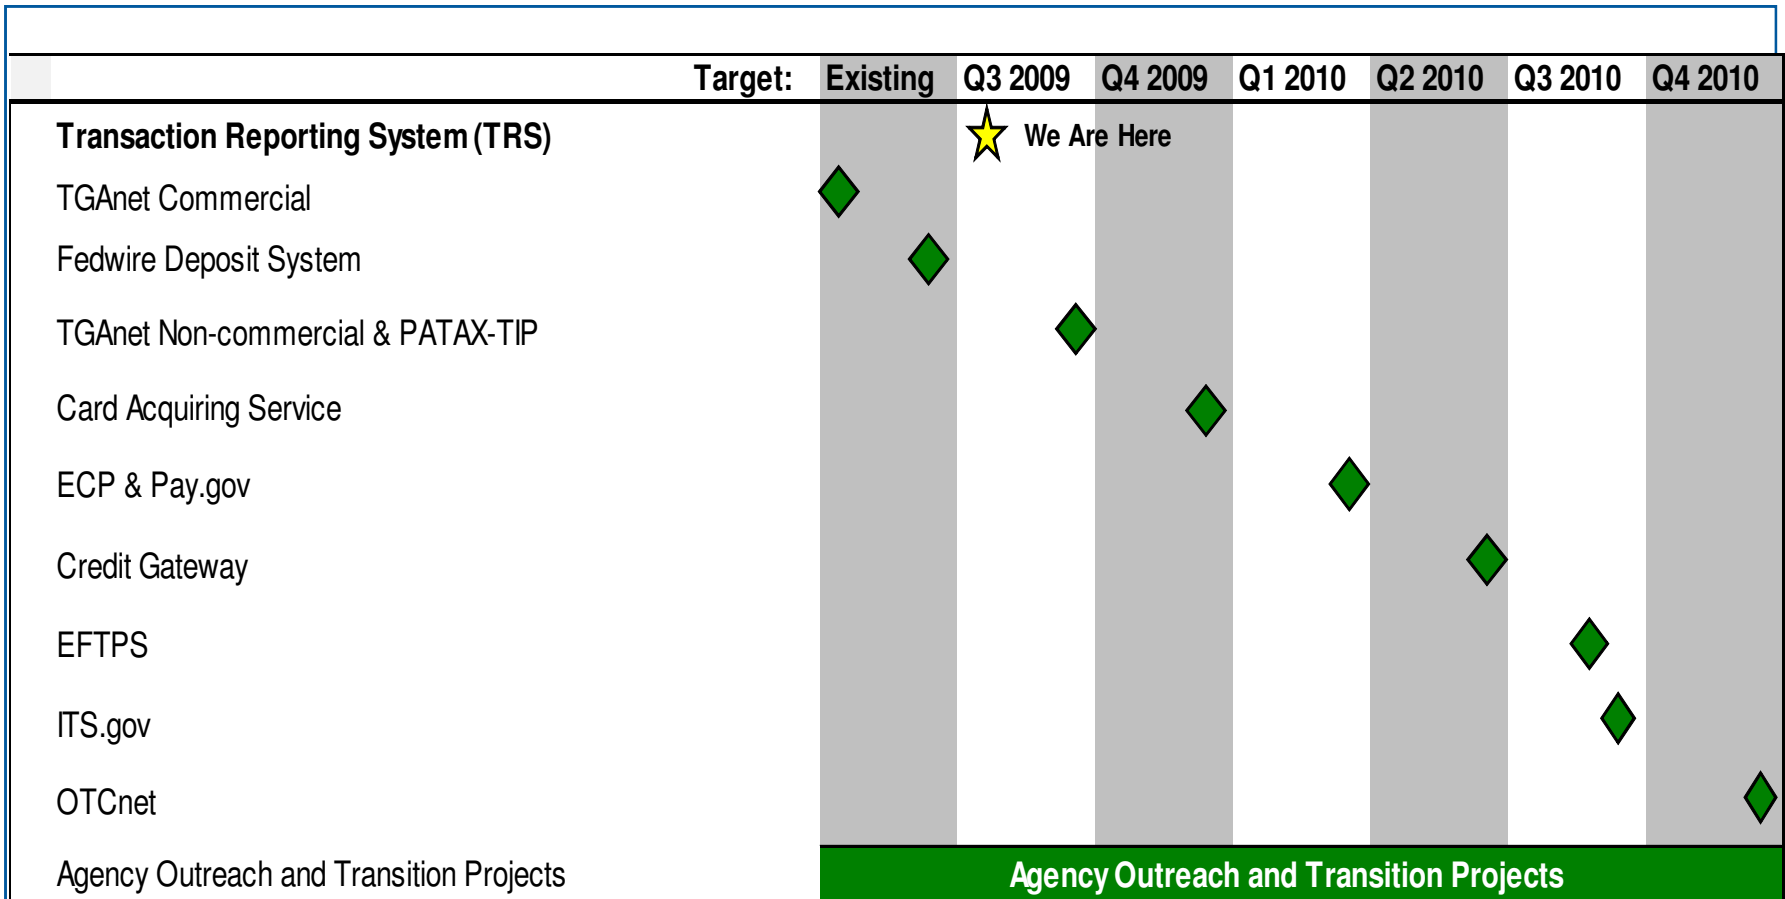

- TRS will receive data from a limited number of sources.

- Other Treasury initiatives will consolidate legacy data sources into modernized collection channels.

- Obtaining all of your agency's data through TRS is dependent on having data reported through these Treasury sources:

  - Over-the-counter collections need to be reported through either Treasury General Account Deposit Reporting Network (TGAnet) or Paper Check Conversion (PCC).

  - Lockbox transactions that are settled through financial agents need to be reported through Electronic Check Processing (ECP).

  - Corrections and adjustments need to be reported to TRS by the channel application instead of being reported directly into CA$HLINK II.

Reports &
File Transmissions

- TRS generates reports via a commercial off-the-shelf product called Business Objects (BO)

- Reports can be accessed online and downloaded into PDF, Excel and CSV formats

- User can customize standard reports with search criteria and save to a personal folder

- Reports can be scheduled

  – Downloaded from TRS application

Preparing Your Agency for Transition to TRS

The Transaction Reporting System of the United States Treasury
Identify preparation activities or actions that your agency will need to take to prepare for TRS:

- Receive data through other Treasury sources: over-the-counter collections from either TGAnet or PCC.

- What policies do you have that may be impacted?

- What processes do you have that may be impacted?

- Will work redesign activities be necessary?
  - Will new skills be needed?
  - Will job descriptions require rewriting?
  - Will any jobs require reclassification?

Department of the Treasury
Financial Management Service

PNC
- What reports and data downloads may your agency need to modify or develop?

- What system-to-system interfaces may be impacted?

- Will the agency require budget modifications?

- What other changes are suggested?
